

## USING THE CARDBOARD SAW SAFELY

The fine toothed cardboard saw is designed to cut cardboard quickly and easily but like any cutting tool, it can cut skin if used carelessly.

### Safety points:

- Ask the teacher if you are allowed to use the cardboard knife.
- Always wear safety glasses when using tools.
- Use gardening type gloves if cutting near hands.
- Always cut away from your hand and body when using the saw.
- Make sure you know who or what is behind the cardboard when cutting out holes or shapes.
- Keep your work area clean and tidy.
- Put away the tool safely after use.
